Management Report

Dear Shareholders

During the quarter just ended, from the beginning of October to the end of December, net asset value (NAV) per HBM Healthcare Investments' share recovered strongly, rising 23.6 percent to end 2015 at a new high of CHF 149.76. The share price climbed by 10.9 percent to CHF 102.00 in the same period.

HBM Healthcare made a profit of CHF 208 million in the third quarter of the current financial year. This pleasing quarterly result took profit for the first nine months of the financial year to CHF 101 million.

Successful IPO in the portfolio of private companies

Activity in the portfolio of private companies centred around the successful IPO of Advanced Accelerator Applications (AAA). The French company brought in USD 75 million in new capital. The share price has rocketed by 95 percent, resulting in a book profit of CHF 62 million. During the present quarter, AAA will submit applications for regulatory approval for its Lutathera cancer drug in Europe and the USA.

Meanwhile, Cathay Industrial Biotech closed a USD 135 million equity financing deal with the Chinese Lu'an Group. An assessment of the deal enabled us to revalue our holding upwards by CHF 30 million. The investment of CHF 8 million in Medimpulse Holding has been written off in full.

High book profits at public companies

Among the companies in our portfolio of public companies, Pacira Pharmaceuticals (CHF +41 million, share price +86.8% over the quarter) settled out of court with the US FDA, which confirmed the broad approval for the analgesic Exparel® that Pacira had requested. Pacira also reported rising sales revenues of USD 69.4 million for the fourth quarter and USD 249 million for the whole of 2015 – a rise of 26 percent compared with 2014.

Further sizeable book profits were recorded during the quarter under review from our holdings in Ophthotech (CHF +27m / +93.8%), Skyepharma (CHF +20m / +12.5%) and Genmab (CHF +13m / +50.0%).

During the third quarter we cut our holding in Basilea Pharmaceutica by more than 80 percent. We then sold the remaining shares in January 2016. HBM Healthcare Investments thus closes out its first-ever investment in a private company, made 15 years ago, with a profit totalling CHF 156 million, and a capital-weighted annualised rate of return (IRR) of more than 15 percent.

New investments

Four new investments in private companies were made during the quarter just ended. Eiger BioPharmaceuticals received a capital commitment of USD 10 million. The US company has a diversified portfolio of compounds in clinical development to treat four rare diseases.

As part of a syndicate, HBM Healthcare also invested CHF 10 million in Swiss company ObsEva, which has a clinical pipeline in the female reproductive health segment.

A further USD 7.5 million was committed to San Francisco-based Iconic Therapeutics. Iconic is conducting a Phase 2a study on a promising molecule for the treatment of age-related macular degeneration.

USD 4 million was invested in the profitable company SAI Life Sciences in Hyderabad, India. SAI is active internationally in the synthesis of complex pharmaceutical compounds and in medicinal chemistry.

Outlook

The fourth quarter of the 2015/2016 financial year got off to an excellent start with the acquisition of the private company Ellipse Technologies by NuVasive in January 2016. This transaction generated a profit of over USD 100 million and an eightfold return on invested capital. Net asset value per share rose by CHF 9.70 (+6.5%) to illustrate once more the enormous value potential of our portfolio of private companies.

The financial markets started calendar 2016 in volatile mood. We must continue to expect fluctuations in the value of the public companies in our portfolio. From the operational perspective, our portfolio companies are developing successfully, which makes them candidates for takeover. In addition, several companies are awaiting clinical data (Paratek, Ophthotech) or approval decisions (AAA, PTC Therapeutics) which will have a bearing on their value.

We will continue along our chosen value-generating path with new investments in private companies and an active approach to portfolio management. A considerable proportion of the funds we earn will be returned to you, our valued shareholders, in the form of share buy-backs and cash dividends.

Consolidated Interim Financial Statements

Notes

1. Information about the Company and its business

HBM Healthcare Investments Ltd (HBM Healthcare or Company) is a SIX Swiss Exchange listed holding company domiciled in Zug, Switzerland. The purpose of the Company is the acquisition, holding and sale of positions in other companies as well as the management and financing of such positions in the human medicine, biotechnology, medical technology and diagnostics sectors, and related areas.

2. Accounting policies

The consolidated interim financial statements have been prepared in accordance with the International Financial Reporting Standards (IFRS) IAS 34 on Interim Financial Reporting, and the provisions of the SIX Swiss Exchange Additional Rules on the Listing of Investment Companies. These interim financial statements should be read in conjunction with the Consolidated Financial Statements for the financial year ended 31 March 2015, as they provide an update to the latest full financial report. In preparing the interim financial statements, the same accounting policies and methods of computation have been applied as in the preparation of the annual financial statements. A summary of the new and revised IFRS/IAS standards and

interpretations effective in the year under review is provided on page 60 of the Consolidated Financial Statements of the 2014/2015 Annual Report.

The use of these standards and interpretations had no significant impact on the financial condition and the earnings situation of the Company, and on its accounting policies. The following exchange rates were used in the preparation of the financial statements:

(CHF)	31.12.2015	31.3.2015
DKK	0.1459	0.1397
EUR	1.0876	1.0438
GBP	1.4767	1.4413
SEK	0.1187	0.1127
USD	1.0021	0.9727

3. Financial instruments

The hedging of the Euro- and the British pound-currency risk as well as of the general market risk (through short selling of units of the ETF iShares NASDAQ Biotechnology Index) has been closed out in the reporting period. The value of the balance sheet position results from the closed hedging of the Euro-currency risk, which will be settled on 11 July 2016.

4. Investments

Investments developed as follows during the reporting period:

	Private companies	Funds	Public companies	Total investments
Development of investments (CHF 000)

Fair value as at 31 December 2015	170,889	145,583	822,775	1,139,247

Further details on investments can be found on pages 11 and 12.

5. Other financial assets

Other financial assets consist primarily of contractual claims to purchase price payments from earlier trade sales that are contingent on the achievement of defined targets (milestone payments). These claims are recorded at fair value through profit and loss in the interim financial statements by applying a probability-weighted valuation approach based

on the assessment of the likelihood of occurrence of certain future events. These claims are discounted over time with a discount rate of 11 percent (previous year: discount rate of 11 percent). The valuation measures applied refer to commonly used industry statistics as well as own guidelines and estimates. The following summary shows the value carried in the balance sheet compared with the potential cash flows:

(CHF million)	Book value as at 31.12.2015	Range of possible cash flows, minimum	Range of possible cash flows, maximum	Expected period of payment
ESBATech	4.2	0.0	47.1	2016–2020
Tripex (former Mpex) ¹⁾	5.5	3.9	>37.3	from 2015 onwards
mtm laboratories	12.5	0.8	25.0	2016–2018
Other companies	2.2	0.1	29.1	2015–2020
Total	24.4	4.8	>138.5	

1) Possible royalties are not factored in. Therefore, possible cash flow might be higher.

Of the total book value as at 31 December 2015, CHF 19.7 million is carried under other financial assets (claims from investments held by HBM Healthcare directly). A further CHF 4.7 million is reported under investments, other private companies (claims from investments held indirectly via HBM BioCapital I). If the companies concerned are successful, these contractual claims could result in future payments which are many times the reported book value.

6. Long-term financial liabilities

HBM Healthcare Investments Ltd as issuer had the following long-term financial liabilities outstanding as at the balance sheet date:

Two straight bond tranches of CHF 50 million par value each, with coupon of 2.0 and 2.5 percent and due for payment on 10 July 2021 and 10 July 2023 respectively, redemption at 100 percent of par value.

The straight bonds are carried at their amortised cost value, subject to the effective interest method. The difference between the net proceeds (after the deduction of transaction costs) and the amount repayable when the bonds fall due for redemption is amortised over the term of the bonds and charged to financial expenses along with the interest that has been paid. The effective interest rates applied are 2.22 and 2.67 percent respectively.

7. Shareholders' equity

7.1 Share capital and capital reserve

As at the balance sheet date, the Company's share capital amounts to CHF 450.5 million (previous year: CHF 468.0 million), divided into 7,700,000 registered shares (previous year: 8,000,503 shares) at a par value of CHF 58.50 each (previous year: CHF 58.50). The Shareholders' Meeting of 26 June 2015 decided to cancel 300,503 of the Company's own shares. This capital reduction was entered in the Commercial Register of the Canton Zug on 9 September 2015. In addition to this capital reduction, the Shareholders' Meeting approved a withholding tax-exempt distribution to shareholders of CHF 5.50 per registered share drawn from the reserves from capital brought in. The payment was made on 6 July 2015.

7.2 Treasury shares

The Shareholders' Meeting of 20 June 2014 authorised the Board of Directors to repurchase up to a maximum of 800,000 of the Company's own shares via a second trading line. The share buy-back programme is intended for the purpose of cancellation as part of a capital reduction and will be completed no later than 19 June 2017 ("2014 share buy-back programme"). The programme started on 3 November 2014. Under this share buy-back programme a total of 377,503 of the Company's own shares have been repurchased to date and thereof 300,503 have been cancelled on 9 September 2015.

The Company holds 77,000 of its own shares (previous year: 125,000 of its own shares) as at the balance sheet date of 31 December 2015. In the 9-month period of the current financial year, a total of 132,003 of the Company's own shares were acquired at an average price of CHF 102.24 per share (previous year: 720,497 of its own shares at an average price of CHF 97.90 per share).

	2015/2016	2014/2015
(Number of own shares)		
Own shares (second trading line) at the beginning of the financial year	245,500	304,000
Purchase of shares within share buy-back programme via second trading line	132,003	155,600
Purchase of shares via buy-back through the issue of put-options	0	564,897
Share capital reduction by means of cancellation of own shares	-300,503	-899,497
Own shares (second trading line) at the end of the reporting period	77,000	125,000

In addition, as at the balance sheet date, the Company holds via its subsidiary HBM Healthcare Investments (Cayman) Ltd 178,572 treasury shares (previous year: 147,239 treasury shares), acquired via the regular trading line. During the 9-month period up to the end of December 2015, a total of 276,540 treasury shares were acquired via the regular trading line at an average price of CHF 96.93 per share (previous year: 97,026 shares at CHF 84.25), while 212,864 treasury shares were sold at an average price of CHF 104.36 per share (previous year: 83,452 shares at CHF 88.80). The gain of CHF 3.0 million (previous year: gain of CHF 2.0 million) from trading in treasury shares, which is reported in shareholders' equity, is based on the proceeds of shares sold, minus the pro-rata average acquisition price of all shares purchased via the regular trading line.

8. Off-balance-sheet commitments

HBM Healthcare has the following investment commitments as at 31 December 2015:

	31.12.2015	31.3.2015
(CHF 000)		
HBM BioCapital I	340	327
HBM BioCapital II	14,389	19,090
Private companies	8,017	29,786
Funds	35,970	21,212
Total investment commitments	58,716	70,415

9. Management fee and performance fee

The management fee due to HBM Partners amounts to 0.75 percent per year of the Company's assets plus 0.75 percent per year of its market capitalisation, payable quarterly at the beginning of a quarter. In the 9-month period up to the end of December 2015, HBM Partners was paid CHF 10.1 million (previous year: CHF 9.0 million).

A performance fee provision of CHF 10.6 million (previous year: CHF 43.0 million) was made during the reporting period because net assets as at the balance sheet date of 31 December 2015 exceeded the highest net assets (high water mark) used as

the calculation basis for the last performance fee payment. The high water mark for all outstanding shares is CHF 141.70. The cut-off date for the payment of any performance fee is 31 March of a financial year.

10. Transactions with related parties

HBM Healthcare holds an investment in the Hatteras Venture Partners III fund, where Board member Robert A. Ingram serves as General Partner. For details on the investment commitment, paid-in capital and valuation of this investment, please refer to the overview of funds on page 12.
